

MATERIAL SAFETY DATA SHEET

VERSION 2 - CLP-GHS CLASSIFICATIONS (EC) No. 1272/2008

Ref: PG/2

1. IDENTIFICATION OF THE SUBSTANCE / PREPARATION AND COMPANY:

Product Name: **LATICRETE MVIS Premium Pointing Mortar**

1.2 Applications: For grouting joints around tile & stone.

1.3 Supplier: Laticrete UK Ltd; Speke Hall Industrial Estate; Speke; Liverpool; L24 1YA
Tel: 0151 486 6101; Fax 0151 448 1982
e-mail: sales@lataicrete.co.uk; web: www.laticrete.co.uk

1.4 Emergency Telephone No. Tel: 0151 486 6101

2. HAZARDS IDENTIFICATION:

2.1 Classification: (1999/45/EEC) Not Classified as hazardous

Risk phrases: N/A
Safety phrases: S2 Keep out of the reach of children.
Avoid breathing dust.
S24/25 Avoid eye and skin contact

Classification : (EC 1272/2008)

2.2 Label elements:

Key Word: N.A
Hazard statements: Not classified as hazardous
Precautionary statements: P102 Keep out of reach of children.
P260a Do not breathe dust.
P280f Wear protective gloves, eye and face protection.
P501a Dispose of contents/container in accordance with local regulations.
Supplementary precautionary statements: P362 Take off contaminated clothing and wash before reuse.
P403+233 Store in a well-ventilated place. Keep container tightly closed.
P405 Store locked up.

2.3 Other hazards: Inhalation of silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Persistent inhalation of silica dust may have long-term serious chronic health effects if recommended protective controls are ignored:

3.1 Substances:

Name:	CAS No.:	Concentration:	Classification: (EC 1272/2008)
Silica sand	80878-86-0 2-3	40.0 – 60.0 %w/w	n/a
Calcium Aluminate	65997-16-2	20.0 – 30.0 %w/w	n/a
Calcium Sulphate	7778-18-9	5.0 - 10.0% w/w	n/a
Octyl Isithiazolinone	26530-20-1	< 0.1% w/w	H311; H314; H331; H400; H410

MATERIAL SAFETY DATA SHEET

VERSION 2 - CLP-GHS CLASSIFICATIONS (EC) No. 1272/2008

4. FIRST AID MEASURES:

4.1 Description of measures:

EYE CONTACT: Do not rub eye. Immediately flush with plenty of water for up to 15 minutes. Remove any contact lenses and open eyelids. If irritation persists: Continue flushing during transport to hospital.

INHALATION: Remove affected person to fresh air. If nose or airways become inflamed or breathing difficulties occur and irritation persists seek medical attention.

SKIN CONTACT: Remove contaminated clothing immediately and wash skin with soap and water. In case of rashes, wounds or other skin disorders: Seek medical attention.

INGESTION: Clean out mouth with copious volumes of water and drink plenty. Do not induce vomiting. Seek medical attention if mouth is inflamed.

4.2 Acute & Chronic symptoms:

Inhalation: Frequent inhalation of large quantities of cement dust over a long period of time increases the risk of developing lung diseases. Silica dust may irritate throat and respiratory system and cause coughing. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.

Ingestion: May cause irritation in mouth and throat. Small amounts due to normal handling will have little or no effect.

Skin contact: No known adverse effects under normal conditions of use although persistent unattended skin contact may induce redness.

Eye Contact: Eye contact with cement (dry or wet) may cause serious and potentially irreversible injuries.

4.3 Immediate medical attention: See First Aid measures above

5. FIRE FIGHTING MEASURES:

5.1 Extinguishing media: All cement-based adhesives are non-flammable, although paper sacks may well smoulder & combust. Use extinguisher appropriate to the surrounding materials & fire.

5.2 Combustion Hazards: Oxides of carbon and paper ash. During fire, toxic gases (CO, CO₂) are formed.

5.3 Advice for fire-fighters: Wear self-contained breathing apparatus with full face piece and protective clothing

6. ACCIDENTAL RELEASE MEASURES:

6.1 Personal protection: Avoid inhalation of dust. Avoid contact with eyes and prolonged skin contact. Use work methods which minimise dust production.

6.2 Environmental precautions: Contain spillage within a defined area and avoid discharge to watercourses and drains.

6.3 Spill removal methods: Ideally use an industrial vacuum cleaner and only brush residues when sprinkled with a dampened absorbent (sawdust or granules) into sealable containers when wearing personal protective equipment and ensuring adequate ventilation is available

6.4 References to other sections: Before attempting any clean-up operation, consult the requirements for protective equipment shown in section 8 of this document.

7. HANDLING & STORAGE:

- 7.1 Safe handling precautions:** Lifting operations of no more than 1 case of 3 x 5kg sachets at a time.
- 7.2 (a) Safe storage conditions:** Store in sealed, clearly marked sacks. Keep out of reach of children in a cool well-ventilated environment, preferably off the ground and out of contact with water. This product must be stored in unopened bags in cool dry conditions and protected from excessive draught. Protect containers against physical damage and check regularly for leaks. Observe manufacturers storing and handling recommendations.
- 7.2 (b) Incompatible materials:** Avoid exposure to moisture when in storage prior to use
- 7.3 Specific end uses:** Construction material

8. EXPOSURE CONTROLS & PERSONAL PROTECTION:**8.1 Control parameters**

Substance:	8 hour exposure limit	Type:	Source:
Total dust Respirable:	10.0 mg/M3	TWA	EH40
Silica dust: Respirable:	0.1mg/M3		
Total dust inhalable:	5.0 mg/M3	TWA	EH40
Silica dust: Inhalable:	0.1mg/M3		

8.2 Exposure controls:

Engineering controls: Provide adequate ventilation. Observe occupational exposure limits and minimise the risk of inhalation of dust by using contained ventilation where practical.

Respiratory protections: During dust-raising work: Use respiratory equipment with particle filter, type P2. Or wear a BS rated disposable dust mask for each daily task.

Hand protection: Wear natural rubber gloves or gauntlets approved to EN 374 & EN 420

Eye protection: Dust proof BS 2092 Goggles or chemical grade visors are also advised wherever there is a risk of dust or paste entering the eyes.

Other Protection: PVC overalls with long-sleeved elasticated cuffs and closed neck should be worn and laundered immediately after use. Do not work in powder or paste contaminated overalls.

Particular care should be taken to ensure that mixed grout does not enter the boots.

Hygiene measures: Contact with skin must be washed off immediately

9. PHYSICAL & CHEMICAL PROPERTIES:

Appearance:	Fine powder	Relative density:	1.75 Kg/litre when mixed
Odour:	Negligible	Water solubility:	< 1%
Odour threshold:	n/a	Solubility in oils:	n/a
pH:	10.0 – 11.0 when mixed	Partition coefficient (Kow):	n/a
Flash point:	n/a	Auto-ignition temperature:	n/a
Melting point:	n/a	Decomposition temperature:	n/a
Boiling point:	n/a	Surface tension:	n/a
Evaporation rate:	n/a	Viscosity:	8000 – 15000 Mpa.s mixed
Upper/Lower Flam limits:	n/a	Explosive properties:	n/a
Vapour pressure:	n/a	Oxidising properties:	n/a
Vapour density:	n/a	Particle size:	Less than 300 micron

15. REGULATORY INFORMATION:

15.1 Safety, health and environmental regulations / legislation specific for the substance or mixture

All components are listed as existing substances in Europe

UK Regulatory References:

Health and Safety at Work Act 1974. The Control of Substances Hazardous to Health Regulations 2002 (S.I 2002 No. 2677) with amendments. Chemicals (Hazard Information & Packaging) Regulations.

Environmental Listing - Control of Pollution Act 1974. Control of Pollution (Special Waste Regulations) Act 1980.

Statutory Instruments:

The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (S.I 2009 No. 716).

Approved Code Of Practice Classification and Labelling of Substances and Preparations Dangerous for Supply.

Guidance Notes:

Workplace Exposure Limits EH40. Introduction to Local Exhaust Ventilation HS(G)37. CHIP for everyone HSG(108).

EU Legislation:

Dangerous Substance Directive 67/548/EEC.

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, including amendments. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 with amendments.

National Regulations:

Users of this product are reminded of their duties under the current Control of Substances Hazardous to Health Regulations and a suitable and sufficient assessment of all the risk should be undertaken before using this product. The guidelines given in the HSE publication COSHH ESSENTIALS - Easy Steps To Control Chemicals gives sound advice for deciding safe working control measures.

Authorisations (Title VII Regulation 1907/2006) - No specific authorisations are noted for this product.

Restrictions (Title VIII Regulation 1907/2006) - No specific restrictions of use are noted for this product.

15.2 Chemical safety assessment

A chemical safety assessment has not been carried out for this product.

16. OTHER INFORMATION:

Last revision date: 22-02-19

SDS No.: PG/2

List of abbreviations used in this SDS:

CAS	Chemical abstracts service
CLP	Classification, labelling & packaging regulation (EC) No. 1272/2008
DSD	Dangerous substances Directive 67/548/EEC
DPD	Dangerous Products Directive 1999/45/EC
PBT	Persistent, Bio-accumulative & Toxic
REACH	Registration, Evaluation, Authorisation & Restriction of Chemicals Regulation (EC) 1907/2006
vPvB	Very Persistent, very Bio-accumulative
